

9000S+

PERFECT
FOR

500+

COFFEES
PER DAY.

The WMF 9000S+ is the perfect coffee machine when high volume and quality matters. Bringing the whole suite of WMF technologies, into a compact footprint, the 9000S+ gives you a range of flawless coffee specialities, including hot and cold varieties of them, at the press of a button.

- WMF Dynamic Milk gives you hot and cold milk foam with several levels of thickness
- A new HD panel display gives you the ability to deliver advertising and marketing communications as the user makes a coffee.
- Perfect coffee specialities at the touch of a button
- Featuring industry leading low power consumption
- **HACCP Certified** Plug & Clean: effortless cleaning
- Designed for environmentally friendly recycling
- Designed & Made in Germany

WMF Dynamic Milk allows you to prepare hot and cold foamed milk drinks from the single machine, with different levels of foam for each type.

Advertising possibilities - Additional turnover right in front of your nose. On the 10-inch display, advertising animations or special offers can be integrated in self-service mode.

The WMF 9000S+ brewer has been redesigned for the high volume market and can be removed by hand in seconds, allowing for unparalleled service capabilities.

The 'All-in-one' WMF spout is an stationary position with a height adjustable cup tray which gives a greater quality of beverage dispensed.

The 9000S+ is more environmentally friendly with reduced energy consumption, fewer chemicals and almost entirely recyclable. WMF is an ISO 14001 Certified brand.

Fully-automatic cleaning system for WMF milk system that uses a cleaning tablet. The foamer head remains in the machine and does not have to be manually cleaned. HACCP Certified.

The 9000S+ features high-capacity Ditting grinders which feature a 4g/sec grind rate, reduced grind noise, and are easy to adjust, with a consistent particle size for even coffee extractions.

The 9000S+ features an LED menu system that can be customised for self service, food service operations and is brandable. It can also play video files and deliver marketing communications.

Features up to 4 product hoppers, which can hold multiple coffee blends, chocolate and milk powder. These feature a visual light signal with an empty message for the bean hoopers.

Cleaning and all other user functions are a breeze with a user manual of easy to follow videos on the screen during the process.

WMF New Zealand have a NZ wide sales & service network with trained service engineers. WMF can provide forecasted service costs for all models.

The WMF 9000S+ features class leading energy efficiency with savings up to 30% in class (Independently certified through HKI Cert with standard DIN18873-2)
